

Modulbox by Highmark Program - 9/2017

Modulbox - Offered as a 30-day rental: The Modulbox is a fully mobile booth engineered for outdoor use and deployed on a standard trailer pulled by a standard full size pick-up truck. It is an 8'x8'x8' cubic exhibition that opens up in the blink of an eye and can become up to a 256 sqft of open pavilion with brandable walls and roof. The Modulbox is easy to handle: the unit lifts and lowers itself off the trailer making the set-up simple with electrical power or via the optional supplied generator. Within minutes of arrival, the Modulbox can be placed on the ground, requiring only one individual to open the roof, floor and walls by hand.

INCLUDED: Standard Modulbox Unit | Trailer | Generator | Counter | Road Cover
 Two Hour User Training | Quick Set-up Guide | Modulbox Service Kit
 Road Service Kit

EXTRAS: Full Vinyl Graphics | Mesh Vinyl Canopy Graphics
 Monitor | Monitor Mount Bracing | Corner Canopies

Modulbox MAX - Offered as a 30-day rental: The Modulbox MAX is the “big brother” of Modulbox offering the same outdoor use, mobility, ease of deployment, and transportation method as the smaller Modulbox. It is an 8'x15'x8' cubical rectangular exhibition trailer that opens up in the blink of an eye and can become up to a 488 sqft of open pavilion with brandable walls and roof. The Modulbox MAX is large enough to house an entire automobile under the roof making it unique to other products in its category.

INCLUDED: Standard Modulbox Unit | Trailer | Generator | Counter | Road Cover
 Two Hour User Training | Quick Set-up Guide | Modulbox Service Kit
 Road Service Kit

EXTRAS: Full Vinyl Graphics | Mesh Vinyl Canopy Graphics
 Monitor | Monitor Mount Bracing | Corner Canopies

Mo5 - Offered as a 30-day rental: Mo5 is a compact, fully mobile, kiosk counter built for outdoor use and face-to-face marketing. It is a brandable promotional counter on wheels with a roof and storage space. When fully unfolded, it stands nearly 12' tall and is perfect for a tasting booth, information kiosk, or brand ambassador station. The Mo5 can be unloaded, deployed, and reloaded in seconds.

INCLUDED: Standard Mo5 Unit | Road Cover | Quick Set-up Guide

EXTRAS: Full Vinyl Graphics

BRANDING

Highmark offers vinyl graphics for the walls, canopies, and other brandable surfaces of Modulbox, Modulbox MAX, and Mo5. Full graphic specifications and templates are available from Highmark. Graphic files created by the client can be printed and applied at Highmark. Customers can also create, print, and apply their own graphics based on Highmark specifications.

TRANSPORTATION & LOGISTICS

All Modulbox systems should only be operated by trained personnel. Each client will go through a two hour training process at the Highmark facility (or at the clients' location for an additional cost).

The Modulbox and Modulbox MAX units both have specific requirements for the vehicle towing the units and the class hitch specifications. Documents available for final logistical planning:

- Driver Credential Specifications
- Towing Vehicle Requirements
- Class Hitch Specifications
- Full Product Manuals
- Quick Set-up Guides
- Road Service Kit
- Modulbox Service Kit
- Highmark Assistance Contact
